

CONSULTATION FORM

Informed Consent For EBPro Ionic Therapy

EB ionic Therapy is a form of ionic therapy which aids the body's natural detoxification process. Although safe, there are contraindications for use. If any of the following conditions apply, use of EBPro is not recommended.

If any of the following conditions apply, patient should inform the doctor or technician:

1. Current pregnancy
2. Lactation
3. Pacemaker
4. Current chemotherapy treatment

If the patient is diabetic or has low blood sugar, they should eat a meal prior to treatment

I have read this page and understand the risks outlined above. I agree to inform Dumayne Chiropractic if in the future one of the above conditions develop.
